A manual for building a faster brain and a better you! The Little Book of Talent is an easy-to-use handbook of scientifically proven, field-tested methods to improve skills—your skills, your kids' skills, your organization's skills—in sports, music, art, math, and business. The product of five years of reporting from the world's greatest talent hotbeds and interviews with successful master coaches, it distills the daunting complexity of skill development into 52 clear, concise directives. Whether you're age 10 or 100, whether you're on the sports field or the stage, in the classroom or the corner office, this is an essential guide for anyone who ever asked, "How do I get better?" Praise for The Little Book of Talent "The Little Book of Talent should be given to every graduate at commencement, every new parent in a delivery room, every executive on the first day of work. It is a guidebook—beautiful in its simplicity and backed by hard science—for nurturing excellence."—Charles Duhigg, bestselling author of *The Power of Habit* "It's so juvenile to throw around hyperbolic terms such as 'life-changing,' but there's no other way to describe The Little Book of Talent. I was avidly trying new things within the first half hour of reading it and haven't stopped since. Brilliant. And yes: life-changing."—Tom Peters, co-author of *In Search of Excellence* *Little Critter* is on his way to the dentist. It's a thorough check-up, complete with dental x-rays. When Dr. Ghum insists on filling a cavity, *Little Critter* goes through it bravely. The visit is painless to the reader because of *Little Critter's* way of look at things - including the world of dentistry. Too many Christians have become hesitant to study this book of the Bible because of the confusion that surrounds it. But as an experienced pastor, Dan Boone affirms that any child of God can read and understand the truth of Revelation... I know some Big Words. I'll teach them to you. Although you are small, you can use Big Words too. Big Words aren't scary. They're big fun to learn. I was taught once and now it's your turn. The eighth hilarious picture book by the #1 New York Times bestselling team of Jamie Lee Curtis and Laura Cornell helps little people communicate in a big person's world. With grown-up words like cooperate, respect, patience and considerate, a big, boisterous and zany family celebrates the power of language and discovers that words—big or little—are the bridge that connects us all. Our ancestors gathered around a fire in a circle, families gather around their kitchen tables in circles, and now we are gathering in circles as communities to solve problems. The practice draws on the ancient Native American tradition of a talking piece. Peacemaking Circles are used in neighborhoods to provide support for those harmed by crime and to decide sentences for those who commit crime, in schools to create positive classroom climates and resolve behavior problems, in the workplace to deal with conflict, and in social services to

develop more organic support systems for people struggling to get their lives together. A title in The Little Books of Justice and Peacebuilding Series. Lizzie (nicknamed Little Chef) loves to cook, and with the help of her parents, she is making the most special dish for her grandmother--Super Special Smashed Sweet Potatoes. Like all special dishes, a secret ingredient is a must! Full of excited energy, Lizzy begins her dinner preparation by making a list and getting fresh ingredients at the farmer's market. But Lizzy is determined to find the perfect secret ingredient for the dinner. What is it? A real chef never reveals her secrets! Though there are many ingredients when we cook, sometimes the best ingredient of all is cooking with and for those we love. A collection of designs showing ancient mythologies of Hinduism. This Little Black Book is your companion for Lent. It's an old-fashioned "vade mecum" (pronounced vahday maykum). That's Latin for "travel with me" and was used to describe a book that was a constant companion – perhaps a condensed book of prayers for traveling priests, or a handbook for quick reference – something you could take with you anywhere. Little changes can make a big, big difference! In The Little Book of Big Change, psychologist Amy Johnson shows you how to rewire your brain and overcome your bad habits—once and for all. No matter what your bad habit is, you have the power to change it. Drawing on a powerful combination of neuroscience and spirituality, this book will show you that you are not your habits. Rather, your habits and addictions are the result of simple brain wiring that is easily reversed. By learning to stop bad habits at the source, you will take charge of your habits and addictions for good. Anything done repeatedly has the potential to form neural circuitry in the brain. In this light, habits and addictions are impersonal brain wiring problems that result from taking your habitual thinking as truth, and acting on that thinking in the form of doing your habit—over and over. This book offers a number of small changes you can make in your everyday life that will help you stop your bad habit in its tracks. If you want to understand the science behind your habit, make the decision to end it, and commit to real, lasting change, this book will help you to finally take charge of your life—once and for all. "It's hard to talk clearly about investing and make sense to ordinary readers at the same time. Katsenelson gives a lucid explanation of today's markets with sound advice about how to make money while avoiding the traps that the market sets for exuberant bulls and frightened bears alike." — Thomas G. Donlan, Barron's "A thoroughly enjoyable read. Provides a clear framework for equity investing in today's 'sideways' and volatile markets useful to everyone. Clear thinking and clear writing are not often paired - well done!" — Dick Weil, CEO, Janus Capital Group "The bible for how to invest in the most tumultuous financial market environment since the Great Depression. A true guidebook for how to build wealth prudently." — David Rosenberg, Chief Economist & Strategist, Gluskin Sheff + Associates Inc. "A wonderful, grounded read for new and seasoned investors alike, Katsenelson explains in plain English why volatility and sideways markets are a stock picker's best friend." — The Motley Fool, www.Fool.com Praise for Active Value Investing "This book reads like a conversation with Vitaliy: deep, insightful, inquisitive, and civilized." — Nassim Nicholas Taleb, author of The Black Swan "Thoroughly enjoyable . . . for the thoughtful and often entertaining way in which it is delivered. . . Katsenelson takes his reader step by step into the mind of the value investor by relating, in a fictional addendum to Fiddler on the Roof, the story of Tevye's purchase of Golde, the cow. He also describes his own big-time gambling evening (he was willing to lose a maximum of \$40) and that of a half-drunken, rowdy fellow blackjack player to stress the importance of process. He then moves on to the fundamental principles of active value investing. What differentiates this book from so many others on value investing is that it describes, sometimes through the use of case studies, the thinking of a value investor. Not just his models or his metrics but his assessments. Katsenelson is an empiricist who weighs facts, looks for contraindications, and makes decisions. He makes value investing come alive. This may be a little book, but it's packed with insights for both novices and experienced investors. And it is a delight to read." —Seeking Alpha This clearly articulated statement offers a hopeful and workable approach to conflict—that eternally beleaguering human situation. John Paul Lederach is internationally recognized for his breakthrough thinking and action related to conflict on all levels—person-to-person, factions within communities, warring nations. He explores why "conflict transformation" is more appropriate than "conflict resolution" or "management." But he refuses to be drawn into impractical idealism. Conflict Transformation is an idea with a deep reach. Its practice, says Lederach, requires "both solutions and social change." It asks not simply "How do we end something not desired?", but "How do we end

something destructive and build something desired?" How do we deal with the immediate crisis, as well as the long-term situation? What disciplines make such thinking and practices possible? A title in The Little Books of Justice and Peacebuilding Series. Feel uplifted with this gorgeously romantic novel from the No. 1 bestselling author and Queen of the Castle, Giovanna Fletcher 'Puts a smile on your face and hope for magical dreams of your own' 5***** READER REVIEW 'I laughed and cried all the way through, I couldn't put it down!' 5***** READER REVIEW _____ Sarah is doing just fine. Sure, she's been single for the last five years, and has to spend an uncomfortable amount of time around her ex-boyfriend, his perfect new girlfriend and all their mutual friends. And yes, her job as a PA to one of the most disgusting men in London is mind-numbingly tedious and her career is a constant disappointment to her mother. But it's really okay. She's happy (ish). So it's not surprising that when Sarah starts dreaming about a handsome stranger, she begins to look forward to falling asleep every night. Reality isn't nearly as exciting. That is until her dream-stranger makes an unexpected real-life appearance, leaving Sarah questioning everything she thought she wanted. Because no one ever really finds the person of their dreams . . . do they? _____ 'Saucy, fun and full of heart. This is Giovanna's most accomplished novel yet! This book ticked every one of our must have boxes' Heat 'Tons of charm and genuine warmth' Star In 2005, Joel Greenblatt published a book that is already considered one of the classics of finance literature. In *The Little Book that Beats the Market*—a New York Times bestseller with 300,000 copies in print—Greenblatt explained how investors can outperform the popular market averages by simply and systematically applying a formula that seeks out good businesses when they are available at bargain prices. Now, with a new Introduction and Afterword for 2010, *The Little Book that Still Beats the Market* updates and expands upon the research findings from the original book. Included are data and analysis covering the recent financial crisis and model performance through the end of 2009. In a straightforward and accessible style, the book explores the basic principles of successful stock market investing and then reveals the author's time-tested formula that makes buying above average companies at below average prices automatic. Though the formula has been extensively tested and is a breakthrough in the academic and professional world, Greenblatt explains it using 6th grade math, plain language and humor. He shows how to use his method to beat both the market and professional managers by a wide margin. You'll also learn why success eludes almost all individual and professional investors, and why the formula will continue to work even after everyone "knows" it. While the formula may be simple, understanding why the formula works is the true key to success for investors. The book will take readers on a step-by-step journey so that they can learn the principles of value investing in a way that will provide them with a long term strategy that they can understand and stick with through both good and bad periods for the stock market. As the Wall Street Journal stated about the original edition, "Mr. Greenblatt...says his goal was to provide advice that, while sophisticated, could be understood and followed by his five children, ages 6 to 15. They are in luck. His 'Little Book' is one of the best, clearest guides to value investing out there." There was a little fur family warm as toast smaller than most in little fur coats and they lived in a warm wooden tree. Just when you thought it was safe to read an early reader . . . SHARK! This fun Step 1 book about two sharks is a study in opposites. Big Shark has big teeth; Little Shark has little teeth. Big Shark swims fast; Little Shark swims slow. But they are both hungry! Will they each succeed in finding a tasty snack? Little Shark is hoping that he won't become fast food for Big Shark! Step 1 Readers feature big type and easy words for children who know the alphabet and are eager to begin reading. Rhyme and rhythmic text paired with picture clues help children decode the story. Sarah Summers is enjoying a holiday on a Nigerian beach when a young girl named Little Bee crashes irrevocably into her life. All it takes is a brief and horrifying moment of crisis — a terrifying scene that no reader will forget. Afterwards, Sarah and Little Bee might expect never to see each other again. But Little Bee finds Sarah's husband's wallet in the sand, and smuggles herself on board a cargo vessel with his address in mind. She spends two years in detention in England before making her way to Sarah's house, with what will prove to be devastating timing. Chapter by chapter, alternating between Little Bee's voice and Sarah's, Chris Cleave wholly and caringly portrays two very different women trying to cope with events they'd never imagined. Little Bee is experiencing all the fullness and emptiness of the rich world for the first time, and her observations are hopeful, charming and piercing: "Most days I wish I was a British pound coin instead of an African girl," she says. "Everyone would be pleased to see me coming." Sarah is more cynical and

disheartened, a successful magazine editor trying to find meaning in the face of turmoil at home and work. As the story develops, however, we learn about what matters most to her, including her fierce, protective love for her funny little son (“From the Spring of 2007 until the end of that long summer when Little Bee came to live with us,” Sarah says, “my son removed his Batman costume only at bathtimes.”). Sarah is trying to find herself as much as Little Bee is — and, unexpectedly, each character discovers a ray of hope in the other. What follows when Little Bee comes back into Sarah’s life is a powerful story of reconciliation and healing, but it is mixed in with a generous helping of satire about the daily difficulties of modern life. This is a novel about important issues, from refugee policy to the devastating effects of violence, but more than that, it does something only great fiction can: Little Bee teaches us what it is like to live through experiences most of us think of only as far off disasters in the news. As ever, the author says it best: “It’s an uplifting, thrilling, universal human story, and I just worked to keep it simple. One brave African girl; one brave Western woman. What if one just turned up on the other’s doorstep one misty morning and asked, Can you help? And what if that help wasn’t just a one-way street?”

Elegant and stunningly illustrated, this monograph chronicles the life of one of history’s most influential couturiers; Coco Chanel. She started a fashion revolution with her liberating inventions in sportswear and jersey, iconic suit, and little black dress. The *Little Book of Chanel* follows the great designer’s evolution and innovation, from her impoverished childhood to her present-day legacy. With its detailed photographs of Chanel’s designs, fashion photography, and catwalk shots, this is a fitting tribute to a legend. A concise, lively, and bracing exploration of an issue bedeviling our cultural landscape—plagiarism in literature, academia, music, art, and film—by one of our most influential and controversial legal scholars. Best-selling novelists J. K. Rowling and Dan Brown, popular historians Doris Kearns Goodwin and Stephen Ambrose, Harvard law professor Charles Ogletree, first novelist Kaavya Viswanathan: all have rightly or wrongly been accused of plagiarism—theft of intellectual property—provoking widespread media punditry. But what exactly is plagiarism? How has the meaning of this notoriously ambiguous term changed over time as a consequence of historical and cultural transformations? Is the practice on the rise, or just more easily detectable by technological advances? How does the current market for expressive goods inform our own understanding of plagiarism? Is there really such a thing as “cryptomnesia,” the unconscious, unintentional appropriation of another’s work? What are the mysterious motives and curious excuses of plagiarists? What forms of punishment and absolution does this “sin” elicit? What is the good in certain types of plagiarism? Provocative, insightful, and extraordinary for its clarity and forthrightness, *The Little Book of Plagiarism* is an analytical tour de force in small, the work of “one of the top twenty legal thinkers in America” (Legal Affairs), a distinguished jurist renowned for his adventuresome intellect and daring iconoclasm. Travel to Twoland where two friends can be double the fun fun!! Globally inspired entrees for Shabbat and holiday tables from the author of *Modern Jewish Cooking*. An elegant celebration of Jewish culinary traditions, *The Little Book of Jewish Feasts* offers the perfect dishes to feature at the center of the table. Leah Koenig shares twenty-five globally inspired Jewish holiday main dishes that will satisfy and delight, from Balsamic and Brown Sugar Brisket to Poppy Seed Chicken Schnitzel to Wild Greens Pie. Building on traditional flavors with the innovative and modern interpretations that Leah is known for, the book features vibrant photographs of each of the show-stopping recipes that embody the flavors of Jewish cuisine. With its delicious takes on the classics, as well as helpful tips for wine pairing and a primer on what to serve for each holiday in the Jewish calendar, this book is sure to bring joy to any festive gathering. More and more of us are suffering from the stresses and strains of modern life.

Mindfulness is an increasingly popular discipline that can not only help alleviate the symptoms of stress, anxiety and depression brought on by the pressures of our daily existence but can actually bring calm, joy and happiness into our lives. In *The Little Book of Mindfulness* Tiddy Rowan, herself a practitioner for over 30 years, has gathered together a seminal collection of over 150 techniques, tips, exercises, advice and guided meditations that will enable people at every level to follow the breath, still the mind and relax the body, whilst generating and boosting a feeling of well-being and contentment that will permeate every aspect of everyday life. The perfect little gift to bring lasting happiness and peace for friends and family. Can community-building begin in a classroom? The authors of this book believe that by applying restorative justice at school, we can build a healthier and more just society. With practical applications and models. Can an overworked teacher possibly turn an unruly incident with students into an

"opportunity for learning, growth, and community-building"? If restorative justice has been able to salvage lives within the world of criminal behavior, why shouldn't its principles be applied in school classrooms and cafeterias? And if our children learn restorative practices early and daily, won't we be building a healthier, more just society? Two educators answer yes, yes, and yes in this new addition to The Little Books of Justice and Peacebuilding series. Amstutz and Mullet offer applications and models. "Discipline that restores is a process to make things as right as possible." This Little Book shows how to get there. Majestic, mighty, and mysterious, dragons teach us how to rise above the mundane and shine like beacons in the dark. This beautiful hardcover book provides everything you need to become a cryptoherpetologist--a student and researcher of these fantastic creatures. Discover the different dragon species and their histories. Learn about dragon life cycles and how to live harmoniously with them. Explore vacation spots for dragon watching in America and Europe. Celebrate seasonal dragon festivals and meet the most famous dragons from literature and lore. Dragon expert Shawn MacKenzie guides you on an epic journey into the world of dragons--all in this convenient little book. There are many ways to make money in today's market, but the one strategy that has truly proven itself over the years is value investing. Now, with The Little Book of Value Investing, Christopher Browne shows you how to use this wealth-building strategy to successfully buy bargain stocks around the world. Spend some time with Little Bear and Mother Bear as they wait for Father Bear to return home. Young readers will enjoy completing these fun activities and lessons based on these delightful short stories about family. This resource is filled with tools and tactics that will help students comprehend and analyze story elements, practice close reading and text-based vocabulary, determine meaning through text-dependent questions, and much more. Strengthen your students' literacy skills by implementing this high-interest resource in your classroom! Four of THE most beloved Dr. Seuss Bright and Early Board Books in a sturdy box with a plastic handle! Inside this cheery green box are abridged board book editions of the Dr. Seuss classics Fox in Socks, Mr. Brown Can Moo! Can You?, There's a Wocket in My Pocket!, and Dr. Seuss's ABC. Secured by a tuck closure and perfect for travel, this cute set makes a literacy-nurturing gift, perfect for babies and toddlers. And if you are looking to give a really special gift, pair this collection with The Little Blue Box of Bright and Early Board Books by Dr. Seuss! She tried to forget the horrors of war--but her quiet hometown conceals a litany of new evils. Sergeant Camille Waresch did everything she could to forget Iraq. She went home to Eastern Washington and got a quiet job. She connected with her daughter, Sophie, whom she had left as a baby. She got sober. But the ghosts of her past were never far behind. While conducting a routine property tax inspection on an isolated ranch, Camille discovers a teenager's tortured corpse hanging in a dilapidated outbuilding. In a flash, her combat-related PTSD resurges--and in her dreams, the hanging boy merges with a young soldier whose eerily similar death still haunts her. The case hits home when Sophie reveals that the victim was her ex-boyfriend--and as Camille investigates, she uncovers a tangled trail that leads to his jealous younger brother and her own daughter, wild, defiant, and ensnared. The closer Camille gets to the truth, the closer she is driven to the edge. Her home is broken into. Her truck is blown up. Evidence and witnesses she remembers clearly are erased. And when Sophie disappears, Camille's hunt for justice becomes a hunt for her child. At a remote compound where the terrifying truth is finally revealed, Camille has one last chance to save her daughter--and redeem her own shattered soul. This classic Little Golden books collection that's all about mom is the perfect gift for Mother's Day! A mini-treasury featuring three Little Golden books all about moms! This unique collection of mommy-themed Little Golden Books is a loving tribute to mothers. Classics, such as Baby Dear, We Help Mommy, and Mommies: All About the Work They Do, are all here. Featuring classic art and text, as well as a beautiful gold spine. A detailed guide to overcoming the most frequently encountered psychological pitfalls of investing Bias, emotion, and overconfidence are just three of the many behavioral traits that can lead investors to lose money or achieve lower returns. Behavioral finance, which recognizes that there is a psychological element to all investor decision-making, can help you overcome this obstacle. In The Little Book of Behavioral Investing, expert James Montier takes you through some of the most important behavioral challenges faced by investors. Montier reveals the most common psychological barriers, clearly showing how emotion, overconfidence, and a multitude of other behavioral traits, can affect investment decision-making. Offers time-tested ways to identify and avoid the pitfalls of investor bias Author James Montier is one of the world's foremost behavioral analysts

Discusses how to learn from our investment mistakes instead of repeating them Explores the behavioral principles that will allow you to maintain a successful investment portfolio Written in a straightforward and accessible style, *The Little Book of Behavioral Investing* will enable you to identify and eliminate behavioral traits that can hinder your investment endeavors and show you how to go about achieving superior returns in the process. Praise for *The Little Book Of Behavioral Investing* "The Little Book of Behavioral Investing is an important book for anyone who is interested in understanding the ways that human nature and financial markets interact." —Dan Ariely, James B. Duke Professor of Behavioral Economics, Duke University, and author of *Predictably Irrational* "In investing, success means being on the right side of most trades. No book provides a better starting point toward that goal than this one." —Bruce Greenwald, Robert Heilbrunn Professor of Finance and Asset Management, Columbia Business School "'Know thyself.' Overcoming human instinct is key to becoming a better investor. You would be irrational if you did not read this book." —Edward Bonham-Carter, Chief Executive and Chief Investment Officer, Jupiter Asset Management "There is not an investor anywhere who wouldn't profit from reading this book." —Jeff Hochman, Director of Technical Strategy, Fidelity Investment Services Limited "James Montier gives us a very accessible version of why we as investors are so predictably irrational, and a guide to help us channel our 'Inner Spock' to make better investment decisions. Bravo!" —John Mauldin, President, Millennium Wave Investments Join the happiness revolution! The author of the New York Times bestseller *The Little Book of Hygge* offers more inspiration and suggestions for achieving greater happiness, by practicing Lykke (LOO-ka)—pursuing and finding the good that exists in the world around us every day. While the Danes are the happiest people on the planet, happiness isn't exclusively Danish; cultures around the world have their own unique approaches to leading a contented, fulfilled life. For his work at the Happiness Research Institute in Copenhagen, Meik Wiking travels the globe from Dubai to Finland, Rio de Janeiro to Bhutan, South Korea to the United States, to discover the secrets of the very happiest people. In *The Little Book of Lykke*, Meik identifies the six factors that explain the majority of differences in happiness across the world—togetherness, money, health, freedom, trust, and kindness—and explores what actions we can take to become happier. As he reveals, we can deepen our blissfulness and contentment with little adjustments in our behavior, whether it's eating like the French (sitting around a table and savoring our time) or dancing the tango like Argentinians in Buenos Aires. With his trademark warmth and wit, Meik explores the happiness gap for parents, how much money you really need to buy happiness, how we can be healthier without having to go to the gym, how we can learn to build trust and collaboration, how we can help ourselves by helping others, and why our expectations often outweigh our reality. Weaving together original research and personal anecdotes, *The Little Book of Lykke* is a global roadmap for joy that offers a new approach to achieving everyday happiness that not only improve our own lives, but help us build better communities and a better world. Sarah loves her shiny yellow boots, until the day she finds she has grown and cannot fit into them any more. Lays out strategies for harnessing one's creativity for greater success, drawing on the wisdom of more than two hundred creative thinkers, including Steve Jobs and Chris Rock. From early morning to bedtime, Little Duck enjoys exploring, playing with his friends, learning to swim, and cuddling with his mother. The best-selling investing "bible" offers new information, new insights, and new perspectives *The Little Book of Common Sense Investing* is the classic guide to getting smart about the market. Legendary mutual fund pioneer John C. Bogle reveals his key to getting more out of investing: low-cost index funds. Bogle describes the simplest and most effective investment strategy for building wealth over the long term: buy and hold, at very low cost, a mutual fund that tracks a broad stock market Index such as the S&P 500. While the stock market has tumbled and then soared since the first edition of *Little Book of Common Sense* was published in April 2007, Bogle's investment principles have endured and served investors well. This tenth anniversary edition includes updated data and new information but maintains the same long-term perspective as in its predecessor. Bogle has also added two new chapters designed to provide further guidance to investors: one on asset allocation, the other on retirement investing. A portfolio focused on index funds is the only investment that effectively guarantees your fair share of stock market returns. This strategy is favored by Warren Buffett, who said this about Bogle: "If a statue is ever erected to honor the person who has done the most for American investors, the hands-down choice should be Jack Bogle. For decades, Jack has urged investors to invest in ultra-low-cost index funds. . . . Today, however,

he has the satisfaction of knowing that he helped millions of investors realize far better returns on their savings than they otherwise would have earned. He is a hero to them and to me.” Bogle shows you how to make index investing work for you and help you achieve your financial goals, and finds support from some of the world’s best financial minds: not only Warren Buffett, but Benjamin Graham, Paul Samuelson, Burton Malkiel, Yale’s David Swensen, Cliff Asness of AQR, and many others. This new edition of *The Little Book of Common Sense Investing* offers you the same solid strategy as its predecessor for building your financial future. Build a broadly diversified, low-cost portfolio without the risks of individual stocks, manager selection, or sector rotation. Forget the fads and marketing hype, and focus on what works in the real world. Understand that stock returns are generated by three sources (dividend yield, earnings growth, and change in market valuation) in order to establish rational expectations for stock returns over the coming decade. Recognize that in the long run, business reality trumps market expectations. Learn how to harness the magic of compounding returns while avoiding the tyranny of compounding costs. While index investing allows you to sit back and let the market do the work for you, too many investors trade frantically, turning a winner’s game into a loser’s game. *The Little Book of Common Sense Investing* is a solid guidebook to your financial future. #1 New York Times bestseller James Dean turns it up in *Pete the Cat’s* cool adaptation of the classic children’s song “Five Little Ducks.” Five little ducks went out to play, with one cool cat leading the way. Sing along with Pete the Cat in his groovy adaptation. Fans of Pete the cat will love rocking out to this classic tune with a groovy twist in this low-price hardcover picture book. By the author of *Dare Me* and *The End of Everything Femmes fatales*. Obsessive love. Double crosses. How does a respectable young woman fall into Los Angeles’s hard-boiled underworld? Shadow-dodging through the glamorous world of 1950s Hollywood and its seedy flip side, Megan Abbott’s debut, *Die a Little*, is a gem of the darkest hue. This ingenious twist on a classic noir tale tells the story of Lora King, a schoolteacher, and her brother Bill, a junior investigator with the district attorney’s office. Lora’s comfortable, suburban life is jarringly disrupted when Bill falls in love with a mysterious young woman named Alice Steele, a Hollywood wardrobe assistant with a murky past. Made sisters by marriage but not by choice, the bond between Lora and Alice is marred by envy and mistrust. Spurred on by inconsistencies in Alice’s personal history and possibly jealous of Alice’s hold on her brother, Lora finds herself lured into the dark alleys and mean streets of seamy Los Angeles. Assuming the role of amateur detective, she uncovers a shadowy world of drugs, prostitution, and ultimately, murder. Lora’s fascination with Alice’s “sins” increases in direct proportion to the escalation of her own relationship with Mike Standish, a charmingly amoral press agent who appears to know more about his old friend Alice than he reveals. The deeper Lora digs to uncover Alice’s secrets, the more her own life begins to resemble Alice’s sinister past—and present. Steeped in atmospheric suspense and voyeuristic appeal, *Die a Little* shines as a dark star among Hollywood lights. Presents a mix of classic and newer titles, including “The Animals’ Christmas Eve,” “The Christmas Story,” and “The Poky Little Puppy’s First Christmas.” Two bombs over Japan. Two shells. One called Little Boy, one called Fat Man. Three days apart. The one implicit in the other. *Brothers*. Named one of *Flavorwire’s* best independent books of 2014, and winner of the 2013 Horatio Nelson Fiction Prize. In this striking debut novel, the atomic bombs dropped on Japan are personified as Fat Man and Little Boy. This small measure of humanity is a cruelty the bombs must suffer. Given life from death, the brothers’ journey is one of surreal and unsettling discovery, transforming these symbols of mass destruction into beacons of longing and hope. “Impressive. . . The novel straddles a hybrid genre of historical magical realism.” —*The Japan Times* “Meginnis’s talent is his ability to make the reader feel empathy for souls who killed so many. . . Many pages in this novel feel like engravings . . . Meginnis has written one of the best, most natural novels about the atomic bombs.” —Nick Ripatrazone, *The Millions* “[An] imaginative debut. . . Meginnis’ story is both surprising and incisive.” —*Publishers Weekly* New York Times Bestseller *Embrace Hygge* (pronounced hoo-ga) and become happier with this definitive guide to the Danish philosophy of comfort, togetherness, and well-being. Why are Danes the happiest people in the world? The answer, says Meik Wiking, CEO of the Happiness Research Institute in Copenhagen, is Hygge. Loosely translated, Hygge—pronounced Hoo-ga—is a sense of comfort, togetherness, and well-being. “Hygge is about an atmosphere and an experience,” Wiking explains. “It is about being with the people we love. A feeling of home. A feeling that we are safe.” Hygge is the sensation you get when you’re

cuddled up on a sofa, in cozy socks under a soft throw, during a storm. It's that feeling when you're sharing comfort food and easy conversation with loved ones at a candlelit table. It is the warmth of morning light shining just right on a crisp blue-sky day. The Little Book of Hygge introduces you to this cornerstone of Danish life, and offers advice and ideas on incorporating it into your own life, such as: Get comfy. Take a break. Be here now. Turn off the phones. Turn down the lights. Bring out the candles. Build relationships. Spend time with your tribe. Give yourself a break from the demands of healthy living. Cake is most definitely Hygge. Live life today, like there is no coffee tomorrow. From picking the right lighting to organizing a Hygge get-together to dressing hygge, Wiking shows you how to experience more joy and contentment the Danish way. I don't want you. You mean nothing to me. I never loved you. I turned my words into swords. And I cut her down. Shoved the blade in and watched her fall. I said I'd never hurt her and I did. Years later I'm faced with all the little lies, the untruths, the false realities, the damage I inflicted when all I wanted was to indulge in my obsession. Lavender Waters is the princess in the tower. Even her name is the thing fairy tales are made of. I used to be the one who saved her. Over and over again. But I don't want to save her anymore. I just want to pretend the lies are still the truth. *Little Lies is a 105k standalone new adult romance.

Right here, we have countless books **Mother Angelicas Little Of Life Lessons And Everyday Spirituality Raymond Arroyo** and collections to check out.
